

## Bob and Jeanne Strobel

**February , 2012**

Greetings,

Since our last report about the missions conference here, we have been busy following up on what God did during that time. We continue to press for the church situation here in Hawaii to better put things in order to gather, equip and train.

We have been working with Pastor Chris Nayyir, our Pakistani pastor here, to follow up with Bible studies in his home for those of the Pakistani family who were touched by the Lord. It is a very wonderful thing to see the hunger and desire to grow to know the Lord in a greater way.

The money we were able to raise through those of you who gave and the church here to help Pastor Chris's church in Pakistan relocate last year has been effective and they are doing well. Obviously, we desire to be with them in Pakistan some time and the pastor there desires to be with us here sometime. Much to be done, wow!!

Jeanne and I are returning to the Philippines on Feb. 20. I believe this extended trip is going to be one of the most defining trips we have made. We will, of course, minister within the realm of churches we have been a part of for so many years. The Philippines has always been a launching pad for us into other nations and now we believe that which we have seeded there will increasingly manifest resources to be a part of ministry into the nations.

***"Ask of me, and I will give you the nations for your inheritance, and the ends of the earth for your possession" Ps. 2:8***

The Philippines has been recognized by many as a launching pad or bridge to the nations. I have written and preached about my perspective over the years. I believe the Philippines positioning and what the Lord has been doing throughout its HIStory has created a nation and a people who are and will be in a greater way all the time, a vital part of God's harvest of the nations. In other words, they will be greatly used to bring the message of the Gospel of the Kingdom to all nations.

As you know, our last trip took us to Indonesia and an effectual door into that realm of the Islamic world. We intend to follow up there and believe that will lead to some other openings there as well as other places. I had a dream last May indicating that Kuala Lumpur in Malaysia will become a base of operation for us. How and when will that come about, God knows. However, it will come about in His time and He will show us. In the mean time we need to be in motion pursuing what He has put before us so that He can bring it about in its time.

One of the reasons that I believe this is such a critical time for us is that the Islamic world is more inflamed than ever and the potential for very much more dangerous times ahead are imminent. I continue to believe that God has determined to set the Middle East free and ultimately provide for freedom of move-

ment for Apostles, Prophets, Evangelists, Pastors and Teachers so they can also grow into the maturity of the Son of God. (Eph. 4:9-16)

The process it is taking to bring this about is taking longer than any of us could have envisioned and the possibility of there being a far more dangerous time ahead of us is very real. I don't know what all of that is going to mean, but I do know that what God has started, He will complete and we desire with all of our heart to be in tune with Him and be co-workers.

I have obviously written these things to inform you of our vision and travels so that you could pray for us in a more meaningful way. We continue to be so thankful for the way the Lord has provided and for undergirding us in prayer though so many of you. Again, thank you for your prayers and for considering us again in your giving.

God bless you abundantly,
